## *Skin Care Rituals*

All Facials include a skin care analysis, cleansing, facial exfoliation, necessary extractions, a custom mask, moisture, and UV protection. Each patient also receives expert advice for best results between treatments.

### *Customized ~ \$75*

Designed to deliver healthier more radiant skin, this facial is customized to each individual's needs. Skin is left smoother, clearer and healthier than before.

### *Back Renewal ~ \$150*

Revive, renew and nourish this often neglected area. This treatment utilizes many of the same techniques as used on the face to clarify and soften the back. Includes microdermabrasion to the most problematic areas. This treatment is perfect before a special event for both men and women.

### *Oxygen Treatment ~ \$150*

Quench your skin with an anti-aging serum of vitamins, antioxidants and peptides infused with oxygen to significantly hydrate the skin, reducing fine lines, wrinkles and creating a softer, more youthful complexion.

### *Microdermabrasion ~ \$125*

A diamond tipped wand gently and painlessly exfoliates the skin, while also vacuuming the dead cells away. This rejuvenates the skin, leaving a smoother texture and promoting the growth of healthy new skin cells. Usually performed on the face, neck and décolleté, but can also be done on the back.

*Epidermal Leveling may be added to enhance results ~ \$25*

### *Epidermal Leveling ~ \$85*

Epidermal Leveling is an ideal method of skin exfoliation which removes the outermost layer of dead skin cells and fine hairs, leaving the skin incredibly soft, smooth and glowing.

### *Customized Chemical Peels ~ prices vary*

Our chemical peels use varying strengths of pure prescription-strength acid to remove the outer layers of dead skin, revealing the fresher, healthier, softer skin underneath. Can treat face, neck, décolleté and back. Recommended as a series for best results.

### *Microneedling ~ starting at \$300 per treatment*

The latest technology in skin rejuvenation, this procedure uses microneedles to kick start production of new collagen and elastin resulting in a more youthful appearance. (3 to 6 treatments recommended for optimal results).

*Multi-peptide growth factor serum can be added to enhance results ~ \$100*

### *Micropeels ~ \$150*

The ultimate in skin exfoliation, this procedure combines a light chemical peel and microdermabrasion for dramatic results. Enhances collagen, diminishes fine lines, and smooths texture, all resulting in a vibrant glow.

## *Laser Therapies*

### *IPL (Intense Pulse Light)*

#### *Photofacial ~ \$375*

Designed to clear skin of brown spots, irregular pigmentation, small capillaries and overall redness. IPL is also effective in reducing pore size and treating rosacea. Usually done to treat the face, but can also be done on the neck, décolleté, arms, legs and hands for varying prices.

#### *Laser Hair Removal ~ starting at \$50 per treatment area*

Achieve permanent hair reduction on all skin types. Can treat areas such as chin, upper lip, underarms, bikini, legs, back and chest. Packages available, as multiple treatments are recommended for ideal maximum results.

### *À La Carte prices vary*

#### *Skin Care Consultation*

An in-depth consultation is highly recommended to map out your customized skin care needs. Every person's skin is different, so having a consultation is the first step to achieve optimal skin health and a beautiful complexion.

#### *Latisse®*

A prescription treatment for inadequate, or not enough lashes to grow eyelashes longer, fuller and darker. Because this is a prescription product, a consultation is needed.

#### *Eyebrow and Lip Waxing*

A thin layer of wax is spread over the skin and then removed, removing the unwanted hair from the root. New hair will typically not grow back for 2 to 8 weeks.

**Give the GIFT of healthy, radiant skin  
with the SPA Gift Card**

## *Injectables and Dermal Fillers*

We offer a variety of injectables and fillers to smooth wrinkles, reduce folds, plump lips, fill deeper lines and destroy under chin fat. Treatments are customized to achieve individual desired results.

## *Sclerotherapy (Spider/Capillary Vein Removal)*

Involves injecting a solution directly into the superficial leg veins causing the veins to collapse, and eventually fade. More than one treatment may be needed for optimal results.

## *Skin Care Products*

The SPA at Southeastern Plastic Surgery carries an array of physician-preferred products. These products will allow you to extend the results of your treatments while incorporating a routine into everyday living. Please stop and shop anytime during our operating hours, even if you do not have an appointment.
